ABOUT AIT

AIT has been established with an intrinsic aim to promote technical excellence in the state of Rajasthan. Since the time of its inception the institute is dedicated to the pursuit of high standards holistic education. AIT not only offers a healthy learning environment but also provides practical exposure to its students through activity based programs, all the year round. The institute nurtures youthful bright minds from different parts of the country that are mentored under able guidance of experienced and expert faculty in an environment which is equipped with various high tech educational aids & facilities.

Asians Institute of Technology came into being in the year 2009 under the aegis of GD Singhi Shikshan Sansthan Society with the intrinsic aim to harbor technical excellence in the state of Rajasthan.

ABOUT FDP

Research is getting the top most priority in higher education today. College, an abode of knowledge is expected to conduct genuine and high quality research which has impact on the society. Teaching and research complement each other, they should be synthesized so as to bring in relevance to the academic activity in the academia.

The FDP programme on Research Methodology will be a practical and interactive workshop aimed to develop an understanding in designing and carrying out research and guide students for research projects and dissertation. This FDP will offer practical hands on approach to use data analysis tools, software packages through case examples and skill building exercises. It will provide a comprehensive understanding of research methodology that can better equip faculty to effectively guide their own research and students research work. The programme aims to cover topics like Research Design, Understanding the basic functions of research design like problem formulation, hypotheses making, sampling, literature survey, types of research- exploratory Vs confirmatory, data collection procedure, data editing, data analysis, use of SPSS package for data analysis, report writing, paper writing for journals, thesis writing etc.

OBJECTIVES OF FDP:

- Concept development of the researchers and faculty to define research problem and framework
- Help faculty and research scholars to formulate a research proposal
- Guide faculty and researchers in developing suitable research methodology and data analytical tools
- To provide a hands-on experience of the modals and tools used for conducting research in different subject domains
- To make participants aware of advanced issues of research
- To guide researchers in writing papers for journals
- To develop the flair for reading & critiquing research articles
